

A photograph of four hands, two on the left and two on the right, positioned to form the outline of a house. The top two hands have their fingers pointing upwards and towards each other, meeting at the top. The bottom two hands have their fingers pointing downwards and towards each other, meeting at the bottom. The background is a bright blue sky with scattered white clouds above a lush green grassy field. The text is centered within the house-shaped frame.

Hands
can build a house,
but only hearts
can build a home.

The D. V. Legacy

Led by visionary promoters, the group has built a reputation for itself by shaping a world of fine living for people in the western suburbs in a span of fifteen years. Our tribute to high profile living stands testimony in a spectrum of landmark residential buildings in suburbs like Borivali, Dahisar, Mira Road, & Vasai Road. With an array of premium projects coming up in the prestigious neighbourhoods of Borivali, our group is all set to unleash a string of surprises with high value structures that exude high profile living.

Our focus has mainly been on timely completion of all our projects, with no effect on the quality of the outcome. This is where our vast experience of having completed numerous realty projects comes in handy. Our team of leading architects, technical consultants and legal advisors help us to maintain this fine balance on time, everytime.

Years of experience in the construction industry backed by sound financial resources, quality construction, modern amenities and timely possession is turning us into a preferred entity in the realty sector.
